

Hello there,

Welcome to my corner of the web! I'm Ashwin Challapalli, and I'm thrilled to have you here.

My journey into the captivating world of animation began with a Bachelor of Fine Arts (BFA) in Animation and Visual Effects (VFX), where I immersed myself in the intricacies of bringing imagination to life on screen. Building upon this foundation, I recently completed my Master of Fine Arts (MFA) degree in 3D Animation at the prestigious New York Film Academy. This educational journey not only expanded my technical skills but also deepened my understanding of storytelling and visual aesthetics, shaping me into a versatile and well-rounded animator.

Over the past three years, I've had the pleasure of translating concepts into compelling visuals through a variety of projects. From dynamic 2D animations to intricate 3D renders, and from seamless visual effects integration to captivating motion graphics, I've honed my craft across multiple mediums. Leading teams of diverse talents, I've had the privilege of fostering collaboration and guiding projects from concept to completion. Proficient in industry-standard software such as Maya, Unreal, Adobe After Effects, and more. I pride myself on my ability to marry technical expertise with artistic vision, delivering results that exceed expectations.

My time at NYFA provided invaluable opportunities for collaboration and growth. Working alongside fellow creatives, I contributed to a range of projects that challenged me to push the boundaries of my craft. Winning the Best Student Film at the Awareness Film Festival was a highlight, showcasing our team's dedication and talent in storytelling through animation.

As you explore my portfolio, I hope you'll get a sense of my passion for animation and my commitment to delivering exceptional work. Whether you're interested in exploring potential collaborations, discussing upcoming projects, or simply geeking out over the latest animation trends, I'm here and eager to connect.

Thank you for taking the time to learn more about me and my work. I look forward to the possibility of working together and bringing our creative visions to life.

Warm regards,

Ashwin
